

# How do I handle licensing for Windows, Microsoft 365, or other apps in Dizzion?

---

**Note:** Customers are responsible for ensuring their own license compliance. For detailed information about Microsoft Windows licensing requirements within Dizzion DaaS and Cloud PC, please refer to our documentation:

**Microsoft Licensing Guide.** Support for Microsoft Office 365 / Microsoft 365 depends on both the type of license you hold and the underlying Workload VM infrastructure you are using. Microsoft licensing can be complex. If you're unsure about your specific scenario, we recommend consulting your Microsoft licensing expert or reaching out to your Dizzion representative for guidance.
